DETAILED ACTION

Election/Restrictions

1. Claims 1 and 6 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 5, 11, 12, and 17-20 are directed to the species of groups 2-7 no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

2. Claims 1-22 are allowed. The following is an examiner's statement of reasons for allowance: The claims have been allowed in view of the Board of Appeals and Interferences decision reversing the Examiner's rejections over the prior art, and in view of the amendments to the claims to overcome the sustained rejections. The prior art of record fails to teach in combination the upper and lower platform, handle, and regulating components as substantially claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
